Result Sheet

Assignment: Standard Test
Student: Lakshya Tyagi
Total Score: 14/32

Question	Score	Reason
Q1	1/1	Correct working shown using triangle similarity to obtain PQ = 2.16 cm, correctly identifying option B.
Q2	1/1	Correct application of BPT to find EC = 1.1 cm and AC = 4.4 cm, selecting option B.
Q3	1/1	Correctly determined the missing angle using the angle sum property and identified option D (50°).
Q4	0/1	Incorrect option chosen. The correct answer is B (4 : 7).
Q5	1/1	Correct option D ($DC^2 = CF \cdot AC$) selected.
Q6	1/1	Correctly calculated x = 16 and y = 8, selecting option C.
Q7	1/1	Correctly identified that Assertion (A) is false and Reason (R) is true (Option D).
Q8	1/1	Correctly chose option A, as both Assertion and Reason are true and Reason explains Assertion.
Q9	2/2	Fully correct proof establishing AA similarity between ΔABD and ΔCBA and deriving $AB^2 = BC \times BD$ from corresponding side ratios.
Q10	1.5/3	Awarded 1 mark for proving $\Delta ABO \sim \Delta CDO$ and 0.5 marks for stating the ratio of sides. Deducted 1.5 marks because the student incorrectly equated CD/AB to 1/2 instead of 2/1, leading to an incorrect result of CD = 2 cm instead of 8 cm.
Q11	3/3	Complete and accurate proof with correct construction (drawing a line parallel to EF/BF) and applying BPT/Midpoint theorem in both triangles to prove AF = (1/3)AC.
Q12	0/5	No valid proof was provided. Only disjointed algebraic expressions and rough sketches were written.
Q13	0.5/5	Awarded 0.5 marks for writing the given statement and to-prove statement. The proof was struck out and left incomplete.
14.i	0/1	Incorrect calculation and method; the student equated BC to AF to get 53.58 m instead of finding BC = 56.4 m using trigonometry.
14.ii	0/1	Incorrect answer. The student concluded AG = 40 m instead of 38 m.
14.iii	0/2	The student only attempted to find the segment AB incorrectly (120 m) and did not calculate the perimeter of the triangle.
14.iv	0/2	Incomplete and incorrect attempt. The required total length of the wire was not determined.
