Result Sheet

Assignment: Standard Test
Student: Viraat
Total Score: 20/32

Question	Score	Reason
Q1	1/1	Correct option B selected.
Q2	1/1	Correct option B selected.
Q3	1/1	Correct option D selected.
Q4	1/1	Correct option B selected.
Q5	0/1	Incorrect option selected. The correct option is D.
Q6	1/1	Correct option C selected.
Q7	0/1	Incorrect option selected. The correct option is D.
Q8	0/1	Incorrect option selected. The correct option is A.
Q9	2/2	Correct proof using AA similarity of ΔDAB and ΔACB and ratios of corresponding sides.
Q10	3/3	Correctly proved triangle similarity and calculated DC = 8 cm.
Q11	3/3	Correct construction and complete proof using Basic Proportionality Theorem to establish AF = (1/3)AC.
Q12	0.5/5	Awarded 0.5 marks for diagram and stating Given and To Prove; the proof was not attempted.
Q13	5/5	Complete and accurate proof showing $\Delta ADB \sim \Delta CDA$ by SAS similarity and using angle sum property to establish $\angle BAC = 90°$.
Q14.i	0/1	Incorrect calculation; evaluated BD = 40 m instead of finding BC = 56.4 m.
Q14.ii	1/1	Correctly calculated AG = 38 m.
Q14.iii	0.5/2	Awarded 0.5 marks for the perimeter concept. Deducted 1.5 marks due to incorrect values of side lengths resulting in an incorrect final answer.
Q14.iv	0/2	Incorrect approach; failed to determine the total length of the cable AF + FE + EB.
